1. FIXME

I have been used to good sound also in the bedroom and in the kitchen. In Mk 1 and 2, these were powered from the main setup in the living room. Presently, the bedroom and kitchen has a separate setup, although there is a CVBS video cable, and an analog stereo audio cable from the main setup, allowing to listen and to see the source of the main setup.

- Philips portable TV
- Yamaha RX-V 596 2000-07-15
- CD Player: Marantz CD42
- Tape Deck: Marantz SD-53
- Laserdisk Player: Sony MDP 650D
- DVD Video/Audio Player: Panasonic S75. Regional Code free (using a [special remote control](#)).
- Ipod dock Marantz IS-201 (2008-04-28)
- Laserdisk Player: Pioneer CLD925
- Loudspeakers bedroom: IQ Mini Lady, Nubert CS-3, NuLine RS-3
- Loudspeakers kitchen: JBL Control 1G

Taken together, there are 19 loudspeakers in my apartment. For the bathroom and hall, no sound system presently exists.
